

We're looking for an amazing, enthusiastic therapist to join our team working with children in DC. As a team member, you will be supported with our combined 20+ years of experience, but also be provided autonomy and flexibility in your schedule and workload. Our practice invests in its team members because we believe supporting you means supporting our kids! CFs are welcome and encouraged to apply. You won't find a better mix of an interesting caseload, fun clients and families, supportive environment, and great pay with a high degree of freedom.

You should be a self-starter, willing to learn, good with communication, a team player, and ultimately, very passionate about helping and serving the pediatric population. Please contact us and send your resume to [info@thespeechspacedc.com](mailto:info@thespeechspacedc.com)
